

# RGL2

## SINGLE LEG ROPE LANYARD & SHOCK ABSORBER RGL2

This single leg lanyard is produced using 11mm kernmantle rope with machine stitched connection eyes at each end.

An industry standard, and usually the minimum equipment issued/required with a harness for anyone working at height.

This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point.

The shock absorber pack will deploy in the event of a fall limiting the impact force on the user.

### EN 355:2002
